

ALLEN'S R/C MINI-COOPER RULES

Indoor Season

(Updated 11/28/16)

*****Allen's R/C follows basic Tamiya TCS rules for our Mini Cooper Class***
Allen's Specific Rules are in GREEN**

M-Chassis Rules

The Tamiya M-Chassis class is open to all drivers. M-Chassis is one of the most popular classes at TCS events. The M-Chassis class features low cost, fun and competitive racing.

Recommended Skill Level: Intermediate to Advanced

1. **Legal chassis platforms:** M03, M05, M05 V2 and M06
2. Current TAMIYA Mini bodies available for the M03, M05 and M06 are legal and may be used on any chassis platform.
3. **Motor Rules: Any ROAR Approved 17.5 Turn Brushless Motor** or Stock kit 540 Brushed motor.
4. **Timing Rules:** Physical motor timing is allowed. **However, you may not go beyond the manufacturer's maximum timing mark.**
5. **No BOOST ESC (Electronic Speed Control) rules:** Any ROAR legal and approved ESC may be used capable of "Blinky-Mode". These ESC's must not use electronic timing (boost). See General Rules for ROAR approved "blinky" ESC list.
6. Tamiya internal gears only. Aftermarket idler and spur gears are not legal.
7. **Battery rules: Reedy Wolf Pack 3300may 7.4V LiPO #751.**
8. All M-chassis cars must meet a minimum weight of **1300 grams**.
9. **Spec Tire rules:** You must use the pre-mounted and glued spec tires manufactured by Tamiya: items 1016, 1028 and 1029. See rule #40 under "General Rules" for specifics. **Note:** This rule is enforced at every TCS location.
